Peerless Cooking Stove.

Here is the opinion of the editor of the Boston *Journal*.—We have been very much pleased in examing a stove of this pattern, manufactured by Messrs. Pratt & Wentworth of Roxbury for the Paris Exposition, at the store of W. F. Shaw & Co., 869 Washington Street. It is one of the most beautifully finished articles of kitchen furniture we have ever seen, the mouldings being steel finished, the knobs and handles silver plated, the tank and hot closet are made of German silver, all the hollow ware used on the stove is finely enamelled, and the tea-kettle is of burnished copper.

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top, and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove."

GRAY'S PATENT

MOLDED COLLARS

Are the foundation of the immense business now done in Paper Collars, and the present sale of them nearly equals that of all other makes combined.—They have been made from uniform stock from the commencement, which now costs 33 per cent. more than that used in the production of any other Collar—consequently *they cost the dealer more*. Therefore, when consumers are urged to buy other makes at the same prices as GRAY'S, it is because the inferior goods pay more profit.

IF YOU WANT THE Very Best, THEN BUY Gray's Patent Molded Collars, AND TAKE NO OTHERS.

Gray's Patent Novelty Collar,

The original and only patented spaced Collar—and the most popular one ever made.—and the Collar which all manufacturers strive to equal.

Gray's Patent Eureka Collar,

The only Stand-up Collar ever made and molded so as to throw the upper edge away from the neck.

Gray's Patent Linen-Face Collar,

In the favorite Novelty style (from imported stock made expressly for this Collar) and costing but a trifle more than the all-paper; will wear twice as long, and in summer is not so easily affected by perspiration.

Gray's Ladies' Paper Collars,

VARIOUS STYLES.

The above goods are fully licensed by the Union Co., who own all the controlling Paper Collar Patents.

☞ No other Collar, but GRAY'S are Molded, or ever have been.

UNION PAPER COLLAR CO.'S GOODS.

Union Collar, A.

A Full-spaced, Turn-over Collar, from a strong, fine-finished paper, and equal to anything in the market, except GRAY'S.

Union Collar, B.

Full-spaced, Turn-over, well-finished and designed to meet the views of those wishing a good Collar at a moderate price.

Dealers can find in the above a full line of these goods to meet the wants of all consumers, and all made under the personal superintendence of Mr. Gray, the original Patentee of All-paper Collars.

Consumers can rely on uniform goods, which, at the prices, cannot be excelled.

The trade supplied by

AT NIGHT.

The daisies in their wee white caps,
Sleep on the dewy downs,
And butterflies fold up to-night
Their shining golden gowns.

No little truant bird or bee,
Flies in the deafening ...;
And not one little ... everywhere,
Is left without its fold.

Then come, my pretty little one!—'tis time
Thou too shouldst go to rest;
The violet eyes as blue as this,
Droop on her tiny breast.

And buttercups adown the lane
Are dreaming in the dark;
So they'll be earlier out than thou,
And hear the first brown lark.

Haste now, before the stars climb up
The blue wall of the skies;
Thou surely wouldst not have them see
Such drooping little eyes!

Come, sing your pretty evening hymn,
And say your sweet prayer, too;
Asleep?—ah well, the angels will,
Finish the prayer for you.

Death of the Mother of Gen Sweeny.

Mr. Hyran Gallwey, Coroner, held an inquest on Monday last, on the body of a person named Honora Barrett. From the evidence it appears that the deceased, who was a widow, was out on the street on Saturday, and in her usual health, but had been drinking the previous night. About 11 o'clock on Saturday night a woman was called into the deceased's room, and found her quite dead. It appears that the deceased, who was much addicted to the habit of intemperance, was twice married, and the mother of several children one of whom (by her first marriage) is the celebrated Fenian General Sweeny. Verdict—Death from the congestion of the brain, accelerated by excessive drinking.—*Cork Herald Jan.* 12.

The Daily News

NEWPORT.

Newport, Friday, February 2, 1867.

FRANCE AHEAD.

As was to be anticipated, the great project of facilitating navigation between the ports of Europe and the Asiatic coast by a transit across the American continent, has engaged the attention of the European governments. This is one of the most vital matters of interest to American commerce, and to American influence in the adjacent portions of this continent. In the midst of such momentous and perplexing questions as have recently engaged the attention of our government officials there is some show of excuse for the partial neglect of subjects lying without the range of domestic concerns, or of subjects already established as having claims on the attention of the government. Yet public attention has been called, from sources that ought to be influential, to the importance of securing within our own control the command of the routes of transit across this continent. Now, however, the Honduras papers state that the Government of Honduras have entered into a contract with the French Government to construct an Inter-Oceanic Railroad across that Republic.

It has been well known in this country that Napoleon had taken measures to obtain command of the commercial interests that might be influenced by the possession of a hold upon Mexico, before he begun his raid upon that country through the attempted Empire of Maximilian. In the completion of this contract he shows that, although his plan for an Empire in Mexico has failed, he has never relinquished the idea of controlling the commerce across Central America and is likely to secure his end in that respect.

There is scarcely room for a doubt that the practicable method of crossing the continent at any point is by railroad; and the French Emperor appears to have gained possession of a feasible route, the termini of which must be fixed at such points as will afford great advantages for transhipment of freight or passengers from Europe destined for Asia or the Sandwich Islands, over any other south of the United States, as the Pacific terminus will be many degrees of latitude farther North than that of any route across the Isthmus proper.

It appears that, although behind in this business, our government has not been altogether idle, as it is stated that a party of engineers under Mr. Davidson, sent out by the United States Government to make a more complete survey of the Isthmus of Darien with a view to the construction of a ship canal across the Isthmus, were recently in Panama, preparing for their work, which fact proves that we are still adhering to the idea of a canal which all past attempts have shown to be impracticable, beside, if it were not so, clinging to a route which has the disadvantage of unfavorable locations for its termini, and surrendering to the foresight of Louis Napoleon in taking the most expeditious measures for gaining possession of that which has such superior advantages. The shorter distance across the Isthmus is of small moment in these days of railroad enterprise, especially when considered in comparison with the value to commerce of a proper location. The canal project and the Panama route should have been abandoned, and the best location secured by almost any just and proper methods rather than allow the Emperor of France to obtain this advantage over us.

The Nebraska Veto.

Mr. Johnson, in his message vetoing the Nebraska bill, brings some sound logic to bear upon the legislation which accepted and confirmed the constitution adopted for the new State, and then affixed a condition to be complied with by the Legislature before the State could take its place in the Union. The legislation contradicts itself and is a mistake. Congress should have admitted the State with the Constitution and without conditions, or should have sent the whole subject back to the people with the objections and an assurance that admission could be had only on their removal. The policy declared by this action, that no new State can be admitted except on the condition of granting impartial suffrage, is so much gained; but the attachment of it to a bill admitting a State, was a bad precedent for others that may seek admission with similar restrictions of the right of suffrage, beside affording probable ground for numerous complicated questions of constitutional law which may at any time arise when the machinery of State government is in operation and all opportunity of congressional control is lost.

Whatever is gained in time by returning the matter to the Territorial Legislature and not to the whole people, is liable to be subsequently lost by litigation and, perhaps, adverse decisions upon the constitutional questions that may arise. Little, however, is gained even in time, as the subject will necessarily be referred again to Congress after legislative action is had upon it; and the fact that a question may come up as to the right of the Legislature to accept a constitution which the people have not framed, renders the finality of the whole proceeding uncertain.

The South Carolinian says there is a growing disposition among capitalists of the North to loan money to the producers of cotton, for the purpose of enabling them to carry on the labors of their plantations.

GENERAL ASSEMBLY.

JANUARY SESSION—AT PROVIDENCE.

WEDNESDAY, Jan. 30.

Senate.

The Senate met at 11 o'clock, His Honor the Lieutenant Governor in the Chair.

The petition of George Taylor, for confirmation of title to real estate, was referred to the committee on the Judiciary.

An act to incorporate the Westerly M. E. Society was referred to the committee on Education.

The petitioner of Latimer W. Ballou and others for the incorporation of the town of Woonsocket was referred to the committee on the Judiciary.

The petition of the Franklin Institution for Savings for amendment of charter, was referred to the committee on Corporations.

The resolution for repairs on the State jail in Newport county was referred to the committee on State Property.

The resolution for ventilating the State House was read and passed in concurrence.

Mr. Currey, of Providence, presented the petition of Mary S. Hodges for exchange of burial lot. Referred to the committee on the Judiciary.

Mr. King, from the committee on Corporations, reported back the petition of the Wickford Savings Bank for amendment of charter, which was read and accompanying act passed.

Mr. Church, of Bristol, presented the report of the State Allotment Commissioner, which was read and referred to the committee on Finance.

Mr. Currey, from the committee on the Judiciary reported back an act in amendment of Chapter 188—'Of Auditors,' &c. Recommitted to the same committee and ordered to be printed.

Mr. Currey, from the Judiciary committee, reported resolutions relative to the filling of the Cove Basin, in the city of Providence, as a substitute for the original. Read and passed.

The substitute resolution were as follows:

Resolved, That—on the part of the Senate and—on the part of the House of Representatives be a committee to confer with the City Council of Providence or with such committee as they may appoint, and with the several railroad companies whose railroads terminate in said city, and such other parties as they may see fit, with respect to filling in the Cove Basin in said city, and the ceding of a portion of the lands flowed by the waters of said basin to the uses of said railroad companies in exchange for the lands occupied by the Passenger Depot on Exchange Place, as a site for a State House, with accommodations for the courts, a City Hall and other public buildings.

Resolved, That said committee be instructed to procure surveys for the purpose of ascertaining the area of said basin; to inquire into the probable annual cost of maintaining a sufficient depth of water therein to secure at all times a full overflow thereof; the expense of filling the same to a level with the coping of the surrounding wall, together with the cost of wall for a channel to pass the waters of the Woonasquatucket and Mooshassuc rivers into the harbor; to enquire into the probable effect of filling said basin upon the harbor and docks below the Weybosset Bridge and the channel of the river, and that they obtain the opinion of some experienced hydraulic engineer thereon, and also the opinion of the Superintendent of Health, of the City of Providence, as to the probable sanitary effect of said filling of the Cove Basin; and that said committee report upon the several matters embraced in these resolutions at the present or next session of the General Assembly.

The special order of the day, which was the resolutions of proposed amendment to the Constitution of the United States, was taken up.

Mr. Hazard, of South Kingstown, addressed the House at length upon the amendment.

His Honor Lieutenant Governor Greene took the floor and addressed the Senate at length upon the amendment, replying to the position taken by the last speaker.

At the conclusion of Judge Greene's remarks, the Senate adjourned.

House of Representatives.

The House met at 10 1-2 o'clock, Mr. Speaker Van Zandt in the chair.

Mr. Binney, of Providence, presented the petition of sundry citizens of Providence for an amendment of the act in relation to the School Committee of that city. Referred to the committee on Education.

Mr. Weeden of Westerly presented the petition of O. S. Bartlett for leave to peddle without a license. Referred to the committee on Finance.

Also the remonstrance of the Indian Tribe against the passage of the act before the House relative to the tribal lands. Referred to the committee on the Indian Tribe.

Mr. Carpenter, of Providence, presented the memorial of Samuel Rodman on the same subject, of which a similar disposition was made.

Mr. Knight, of Providence, gave notice of an act in relation to the sale and inspection of milk.

Mr. White, of Newport, gave notice of an act in amendment of Chapter 169, Title XXV—of Magistrates and Justices.

Mr. Weeden, of Westerly, from the Committee on Finance, reported back the petition of Fenner H. Peckham for payment for services rendered the Second R. I. V., and also the petition of the Attorney General for payment of accounts, both of which were granted and the accounts allowed.

Judge Greene called up the act reported by the Judiciary Committee—"In amendment of Chapters 164 and 165, Title XXV, and of Chapter 191, Title XXVII, of the Revised Statutes of the Supreme Court and of the Court of Common Pleas, and of Appeals at Common Law, &c."

Judge Greene addressed the House at length explaining the bill and advocating its passage.—He was followed by Mr. S. S. Lapham, of Providence, and Mr. Speaker VanZandt, (Mr. Durfee of Tiverton being in the chair) who opposed it and by Mr. John A. Gardiner, of Providence. The act was then laid on the table for the present by general consent.

The resolution relative to the cove basin and the act in relation to injuries to telegraph companies (from the Senate) were referred to the Committee on the Judiciary.

The act amending the charter of the Wickford Savings Bank (from the Senate) was referred to the Committee on Corporations.

Mr. VanZandt, of Newport, offered a resolution providing for the alteration and renovation of the room now occupied by the Court of Magistrates in Providence with a view to its occupancy by the Supreme Court during the present session of the Legislature.

Adjourned.

THURSDAY, Jan. 31.

Senate

The Senate met at 10 1-2 o'clock, His Excellency the Governor in the chair.

Mr. Currey presented the petition of Charles H. Parkhurst for payment for military service; which was referred to the Committee on Corporations.

Also the petition of John G. Perry for an act to incorporate the Perry Mowing Machine Company, which was referred to the Committee on Corporations.

Mr. Hazard for the Committee on Education, reported a resolution providing for the distribution of the colonial records: which was passed.

Also an act to incorporate the Methodist Episcopal Church in Westerly, which was passed in concurrence.

Also, an act to incorporate the Bristol Home for Destitute Children, which was passed in concurrence.

Also the petition of the Commissioner of Public Schools for an increase of salary, which was referred to the Committee on Finance.

Mr. Currey for the Committee on the Judiciary, reported an act in amendment of chapter 123 of the Statutes—of weights and measures—which was passed in concurrence.

Also an act to incorporate the town of Woonsocket, which was passed in concurrence with a verbal amendment.

An invitation was received from the House to join in Grand Committee at half-past eleven o'clock for the election of a Justice of the Court of Justices of the city of Newport and of Justices of the Peace and Public Notaries; and the invitation was accepted for the same hour Friday morning.

The order of the day—being the proposed amendments to the Constitution of the United States—was taken up.

The Lieutenant Governor took the floor and concluded his remarks, which were commenced yesterday.

Mr. Currey spoke in favor of the ratification of the amendment.

Mr. Hazard and the Lieutenant Governor further spoke briefly on the subject.

Mr. King favored the passage of the pending resolution.

The Senate adjourned to Friday morning at half past ten o'clock.

No. 2.

DR. SCHENCK'S NEW OFFICE.

DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption, or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part alone; whether it is Tuberculous, Pulmonary, Bronchial, or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from liver complaint.

His medicines have full directions, so any one can take them without seeing him; but if they live near he, and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal. Then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills, 25 cents per box.

Cards.—An invoice of Business, Visiting and Wedding Cards, including several new styles, just received at the Daily News Office. Arrangements have been made for Engraving and Copper Plate Printing at New York prices at short notice. Our job office is supplied with new type and prepared to do plain and fancy work in all its varieties.

Accident.—Mr. William S. Bailey, paper bag printer, in Young's Block, while engaged in running his press, this morning, caught his right hand in the gearing, tearing the flesh from three of the fingers of that hand. He will not be able to use his hand for several weeks.

Railroad Notice.—It will be seen, by an advertisement in this day's paper, that traveling to Providence is open by way of Fall River and Warren. Passengers taking the 8 A. M. and 3 P. M. trains will arrive in Providence at 10 A. M. and 5 1-2 P. M.

Shocking Accident.—A melancholy accident occurred this morning, at the works of the Rumford Chemical Works, No. 58 South Water street, whereby Helen J. Bowen, an interesting girl of sixteen years, lost her life in the most shocking manner. Miss Bowen was employed in some capacity in the works, and about half-past eight o'clock this morning, she was warming her feet at the steam pipes, when her dress caught around a revolving upright shaft that was making about eighty turns a minute, within two feet of a brick wall. The poor girl seemed to have grasped the shaft and held on until her leg was broken, when she fainted, and then her head was dashed against the solid wall in a most shocking manner, her skull and brains flying about the room and bespattering the wall. The machinery was stopped as soon as possible, but of course the sad work was done. *Prov. Bulletin, 21st inst.*

One McMullen, who is evidently interested in some Brazil lands and wants to get Southern emigrants to go there, states in his circular that all persons who join the colony will positively be required to give satisfactory references that they are Southern in feeling, pro-slavery in sentiment, and that they have maintained the reputation of honorable men. And all persons bringing this required evidence, are most cordially invited to settle with him, where they will receive a hearty welcome from friends of their own "sort," and a Christian prayer for their future welfare.

The latest papers from Europe bring intelligence of the death of M'lle. Marguerite Georges Weymer, the once famous M'lle. Georges of the French stage. She was born at Amiens in 1786. Her professional career began in 1802, when she made her *debut* at the Comedie Francaise. It was marked by many triumphs, and crowned with the most illustrious success. In the days of the Consulate and the First Empire she stood at the head of the profession. In 1812 she played before the Emperors of France and Russia.

A document has been published by authority of the Roman Catholic Bishop of Quebec, giving at great length the particulars of a miraculous cure effected last New Year's Day by the immaculate Virgin Mary. The miracle was wrought at the Jesus Mary Convent at Point Levi, opposite Quebec. It is represented that a nun who was nearly dead with consumption was miraculously brought to complete health on New Year's Day, prayers having been offered to the immaculate Mary for this specific object by all the nuns in the convent.

No intelligence has been received at the Navy Department concerning the U. S. steamer Swatara, which has Surratt on board; but no apprehensions are entertained with regard to her safety, and would not be if she did not arrive before the end of the first week of February, as under the standing instructions of the Department, in ordinary voyages steam is not used, except in cases where it may be found necessary during the voyage; and the probability is that the Swatara is making the greater part of the voyage under sail.

Internal Revenue Receipts Decreased—The Cause.—Commissioner Rollins reports that the total receipts from Internal Revenue since the 1st of January have been $16,591,702. This is far below the monthly average, even at this usually unproductive season; but the decrease is attributable to several causes—legislative in character—not the least important of which is the recommendation of the Commissioner of Revenue, Hon. Mr. Wells, to reduce the tax on distilled spirits from two dollars to one dollar per gallon, which, of course, operates to check manufacture of the article under existing rates.

They are about cutting a canal in California that will irrigate over a million acres of waste land in several of the counties of that State.—The canal will not only furnish a supply of water for the land, but will serve also as a highway for carrying the products of the land to the San Francisco market.

A Washington dispatch states that many leading Southern men have been in conference for some time with leading Republicans there, for the purpose of arranging a new plan of adjustment, which will be satisfactory to both sections, and they have nearly accomplished their object. It will be made public in a few days.

The Rhode Island statute prohibits the offering of quails or partridges for sale in the markets after the 1st of January, and a Providence man was lately fined $2 and costs apiece for every bird of a lot which he tried to sell in violation of the law. The quails were killed in Ohio and brought to Providence for sale, but the law did not recognize the distinction.

The Illness of Senator Anthony.

A special to the Providence Journal says, Senator Anthony had a poor night, but is a little better to-day. His physician fears some internal injury, but nothing serious is apprehended. He will probably be out again next week.

The Journal says:—Our Washington dispatches refer to the indisposition of Senator Anthony. On Friday of last week, while crossing an icy street, he was struck by a furiously driven sleigh, knocked down and somewhat bruised. The next day he was able to be in his place in the Senate, but since Sunday, we understand, he has been confined to the house. Our information inspires the belief that his injuries are not serious, and that he will soon be able to resume his duties.

A petition, signed by over 1500 veterans of the last war, was presented in the House on Tuesday. The petitioners request that Congress enact such laws as will secure payment of bounties to the soldiers who have been discharged from the service by reason of disability other than wounds, and to those who have lost their discharge papers, both classes of these men being now deprived of the bounty under the act of Congress of July, 1866.

From New York.—The propeller *Mount Vernon* arrived here this morning from New York having come around by the sea route, back of Long Island. She is the only steamer that has arrived here since Sunday morning last. There is no passage for steamers by the Sound route to New York, in consequence of ice at the head of the Sound. It appears as though Government might do something for the removal of this obstruction by the use of some of its numerous iron clads, which would be capital ice breakers.

A decently dressed man with a Northern accent lately appeared in the Court of the Queen's Bench, and, holding up a scrap of paper, addressed the bench as follows:—"My lords, my name is James Derbyshire, and I am authorized to come here to prove myself to be the heir of England, descended from King James II." The Lord Chief Justice coolly asked, "Have you anything further to say, or any further application to make?" The applicant said he had not, and sat down, appearing to take a good deal of interest in what was going on.

An action is pending in the United States Supreme Court on appeal brought by Gen. Schenck, member of Congress from Ohio, to recover on bonds issued by Marshall [Ill.] in aid of a Western railroad company, which the County now attempts to repudiate. The case involves questions of interest to local authorities generally.

It is reported that in Constantinople a war between Russia and Turkey is regarded as imminent. The Turkish Government has called out 150,000 reserves, and Russia has ordered that all military furloughs shall end on the 1st of March. As a general rule, it is well not to rely too much on the Cable dispatches; but a war between Turkey and Russia is much more probable than the suppression of the movement in Crete.

FROM WASHINGTON.

Washington, Jan. 31, 1867.

A letter has been received here from an officer of the Swatara, dated at Lisbon the day before the vessel left, in which he says that Surratt maintains a sullen reserve, only answering questions in monosyllables and studiously avoiding all attempts to draw him into conversation on any subject. He still wears his Papal Zouave uniform.

General Baker, the detective of the War Department, has been examined by a member of the Judiciary Committee to-day. Some assert that he has testified about the pardon brokerage of Mrs. Cobb to be used as a ground of impeachment of the President, but others think that he has testified about the assassination, as the committee is investigating the connection of Jeff. Davis with the plot.

On motion of Representative Hooper, the House Committee on Ways and Means has decided to recommend the abolition of the tax on advertising.

In the United States Senate, to-day favorable reports were made on the bills relating to a bridge across the Missouri at St. Charles and the Mississippi at St. Louis. Mr. Sumner's resolution regarding the Austrian mission occupied the rest of the morning hour.

The tariff bill was taken up, and about half-past two o'clock this morning, was passed by 27 to 10. In the House, the consular and diplomatic appropriations were passed, omitting those for the missions to Lisbon and Rome. The appropriation for the Military Academy were passed, as reported from the committee on the whole.

It was announced that the bill repealing the law conferring power to grant a general amnesty had not been signed by the President nor returned with his objections, and after some search it was found that such a disposition of a bill does not prevent its becoming a law. A bill transferring the control of Indian affairs to the War Department was passed. After some other business the House adjourned.

IMPEACHMENT AND RECONSTRUCTION.

Washington, Jan. 31.—The National Intelligencer to-day gives an account, purporting to be the proceedings of the Southern Republican Association held last night, at which 20 Representatives of States took part in the discussion in favor of holding a convention at Washington on or about the 4th of March next, to urge the impeachment of Andrew Johnson as the only hope of the South for speedy reconstruction.

PAY OF OFFICERS OF THE REVENUE MARINE.

In the House Mr. Eliot reported a bill from the Committee on Commerce regulating the pay of officers of the United States revenue marine. It fixes the pay of Captains at $2500 per annum, 1st Lieutenant and Chief Engineer at $1800, 2d Lieutenant and Assistant Engineers $1500, and 3d Lieutenant and 2d Assistant Engineers $1200. The pay of the same officers when on leave is fixed respectively at $1800, 1500, 1200 and 900, and each officer on duty is allowed one navy ration.

MADAME ZADOC PORTER'S
Curative Cough Balsam,
PRICE, 25 AND 50 CENTS PER BOTTLE,

The Best, Cheapest, and Most effectual Remedy for Coughs, Colds, &c., the World has ever produced. Purely Vegetable, contains no MINERALS, or other DELETERIOUS DRUGS.

The Curative Balsam is Warranted, if used according to Directions, to Cure in all cases, Coughs, Colds, Croup, Whooping Cough Asthma, and all affections of the Throat and Lungs.

Madame Zadoc Porter's Balsam is a Purely Vegetable Expectorant, prepared with great care and scientific skill, from a combination of the best remedies of the vegetable kingdom affords.

Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the Blood through the Lungs.

It enlivens the muscles and assists the skin to perform the duties of regulating the heat of the system, and in greatly throwing off the waste substance from the surface of the body.

It loosens the phlegm, induces free spitting, and will be found very agreeable to the taste. It is not a violent remedy, but emollient, warming, searching and effective; can be taken by the oldest person or youngest child.

If you have a cold, if ever so slight, do not fail to give the Balsam a trial, as the very low price at which it is sold brings it in the reach of every one, that they may always keep it convenient for use.

The timely use of a 25 cent bottle will often prove to be worth one hundred times its cost.

Sold by all Druggists.

LEA & PERRINS'
CELEBRATED
WORCESTERSHIRE SAUCE.

PRONOUNCED BY CONNOISSEURS TO BE THE "Only Good Sauce" AND APPLICABLE TO EVERY VARIETY OF DISH

EXTRACT of a Letter from a MEDICAL GENTLEMAN at MADRAS, to his Brother at WORCESTER, May, 1851.

"Tell LEA & PERRINS that their SAUCE is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome Sauce that is made.

The success of this most delicious and unrivaled condiment having caused many unprincipled dealers to apply the name to Spurious Compounds, the Public is *respectfully* and earnestly requested to see that the names of Lea & Perrins are upon the WRAPPER, LABEL, STOPPER and BOTTLE.

DIRECTIONS FOR
MAKING YOUR OWN SOAP
With Your Waste Grease.

Penn'a Salt Manufacturing Co's RENOWNED
Saponifier!
(Patents of 1st and 8th Feb., 1859)
OR
CONCENTRATED LYE.

2 Cents only for every pound of Soap.

DIRECTIONS.

Dissolve one box of Lye in 2 1-2 pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into this stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces. Add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is all dissolved, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about 10 days.

BEWARE OF COUNTERFEITS.

Be particular in asking for Penn'a Salt M'fg. Co's Saponifier.

CONSTITUTION

LIFE SYRUP!

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) diseases transmitted from PARENT to CHILD.

L

SCROFULA.

STRUMA, GLANDULAR SWELLINGS, ULCERATION, KING'S EVIL, ERYSIPELAS, SALT RHEUM.

This taint (hereditary and acquired, filling life with untold misery, is by all usual medical remedies incurable.

RHEUMATISM.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of twenty or thirty years standing have been cured.

I

NERVOUSNESS.

NERVOUS DEBILITY, SHATTERED NERVES, ST. VITUS' DANCE, LOSS OF POWER, CONFUSION OF THOUGHTS, EPILEPSY.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfills more than it promises.

MERCURIAL DISEASES.

SALIVATION, ROTTING OF BONES, BAD COMPLEXION, ACHES IN BONES FEELING OF WEARINESS, DEPRESSION OF SPIRITS,

F

CONSTITUTION LIFE SYRUP purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, curing the Weak Joints and Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

CONSTITUTION LIFE SYRUP

Eradicates, root and branch, all Eruptive Diseases of the Skin like

ULCERS, PIMPLES, BLOTCHES,

and all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

E

CONSTITUTION LIFE SYRUP

CURES ALL SWELLING OF THE GLANDS, Either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depend upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

S

All scrofulous persons suffering from general Debility, Emaciation, Dyspepsia and Dropsy of the limbs, abdomen and in the female, Dropsy of the ovaries and womb, generally accompanied with inflammation and Ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort.

Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife, or operations of any kind.

Y

Epileptic Fits, Sympathetic or Organic Diseases of the Heart, as palpitation, Diseases of the Valves, producing a grating or filing sound, Dropsy of the Heart Case and all the affections of this important organ (persons suffering from any acute pain in the region of the heart), will be greatly relieved by Constitution Life Syrup.

Broken-down and delicate constitutions suffering from indisposition to exertion, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry, Hot Skin and Extremities, Want of Sleep, Restlessness, Pale, Haggard Countenance and Lassitude of the Muscular System, all require the aid of the Constitution Life Syrup.

R

FOR ALL FORMS OF

ULCERATIVE DISEASES,

Either of the Nose, Throat, Tongue, Spine, Forehead, or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face depending upon the diseased action of the liver are very unpleasant to the young wife and mother. A few bottles of the CONSTITUTION LIFE SYRUP, will correct the secretion, and remove the deposits which is directly under the skin.

In the diseases of the Liver, giving rise to Languor Dizziness, Indigestion, Weak Stomach or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, will be relieved by the use of Constitution Life Syrup.

U

As a general Blood Purifying Agent the Life Syrup stands unrivalled by any preparation in the World.

THE RICH AND POOR

are liable to the same disease. Nature and Science has made the Constitution Life Syrup for the benefit of all.

PURE BLOOD

produces healthy men and women; and if the constitution is neglected in youth, disease and early death is the result.

Price, $1 25 per bottle: one-half dozen for $7.

SECRET AND DELICATE DISORDERS;

Mercurial Affections; Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'
PRIVATE MEDICAL OFFICE,
21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

IS THE ONLY REGULAR GRADUATE PHYSICIAN ADVERTISING IN BOSTON.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

STRANGERS AND TRAVELLERS.

To avoid and escape Imposition of Foreign and Native Quacks, *more numerous* in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines *by the dead*, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum, it is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all who need a *Medical or Surgical* adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also, all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

AMERICAN ORGANS.

[From "Godey's Ladies' Book," February, 1866.]

—o—

REED ORGANS, &c.

The following remarks and suggestions relative to this [illegible] [illegible] instrument will doubtless interest and profit very many of our readers; we commend the article to their careful perusal:

A hundred and one makers of Organs, Cottage, Parlor, School, American, School Organs, etc., etc., are each claiming to make the best instrument in the world. Being comparatively a new instrument, as at present constructed, we are convinced the public are much less capable of judging of its merits, or demerits, than of most other instruments. If there is really any essential difference in them, if there are some excellent and some worthless ones, the public should have some criterion for judging of them, some facts which will enable them [illegible]. We cheerfully concede the space for this notice, knowing that there is hardly a family, or church, or school, in all the land, but is more or less interested in this subject. We are also aware of its being a great instrument, a real calamity, to any of them, to purchase an inferior or worthless organ, to incur the [illegible], and often a curse of much annoyance and vexation. We know this article to come from a candid and intelligent source, and thus we give it to our readers.

The question is often asked, what are "reed organs?" We answer, they are, in most cases, nothing in the world but the old melodeon in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same general internal arrangement. With the outside [illegible] on edge to gain room, they have simply put on a more pretentious exterior, and a more high-sounding name. But an organ, to be [illegible] worthy of the name, must have a wind-chest or reservoir for air, separate from the bellows proper, into which wind enters the reeds open, and the reeds have room to expand and perfect itself into the air, round, full, similar to the tone of pipe organ even, smooth, full and mellow; and this tone from reeds cannot be obtained in any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the case where the reeds open direct into the bellows or air-passage, as is the case with the commonest melodeon. And yet some makers even go so far as to claim this a superior means to jerking of the bellows on the reeds as an excellence, just as though they did not know that it must very soon throw the reeds out of tune, and injure the bellows; and as though it were not an easier matter to obtain a much better and more easily managed swell by other methods. The truth is, any organ, so called, or melodeon, which has the wind acting directly upon the reeds, is nothing more nor less than a huge accordeon, dress it up as you may. And when organists and true musicians become aware of the fact that they are so, those that are organs in fact as well as in name, they will buy no more of the objectionable ones. Then again the swell should always be separate and distinct from the bellows, so as not to be acted on by the hard or soft blowing to be convenient, so that the player can use it with the knee, separate from the blower or feet, and thus always under easy control, to be used *ad libitum*.

The large double bellows, or double bellows, is also a very important improvement. By this means not only can the wind be supplied more evenly, but with far greater ease to the performer, from the fact that either bellows alone will be sufficient for the lighter melodies, thus permitting the player to change about and rest the feet at will; then, if the bellows is of the requisite large size, and having the wind-chest or reservoir, all will be well. As to the reeds, they must be scientifically tuned and voiced, or all the other good qualities of the world cannot produce a good toned instrument. The inquiry now very naturally arises, where can the organ be procured combining all these excellent and desirable qualities?—There is only one possessing all these points, and that is the AMERICAN ORGAN, made by S. D. & H. W. SMITH, of Boston, SIBERIA OTT, Wholesale Agent, 551 Broadway, New York. These organs have a wind-chest extending the whole length of the instrument, and so constructed as to act at the same time as a reverberating sound-box or board, and having the same important relation and part to perform that the sounding board has to the piano. This feature the makers have patented, and to it are owing in a great measure the entirely unequaled full roundness of tone so highly prized by all who have used these organs. They also have the largest and best divided bellows in use, which is another important feature. No part of their work is slighted, no expense or pains spared to make the American Organs perfect musically, as well as mechanically, and, judging from the immense sale of them at present, they bid fair to long maintain the proud position they have won by superior merit alone. We would most heartily advise all interested to call upon or address Mr. SIBERIA OTT, the Wholesale Agent, at 551 Broadway, New York, and can assure them he will, in the most gentlemanly and truthful manner, impart to them all the information they may desire, and send them descriptive circulars, relative to this truly delightful instrument.
